DETAILED ACTION

Rejections withdrawn

1. Claims 3 and 11 rejected under 35 USC 112, second paragraph made in the last Office Action of May 3, 2005 has been withdrawn in view of the amendment filed on August 8, 2005.
2. Claims 1-6 and 9-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Riggsbee (4767654) has been withdrawn in view of the amendment.
3. Claims 1-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Riggsbee in view of Tindall (4886680) has been withdrawn in view of the amendment.
4. Claims 7-8 and 15-20 rejected under 35 USC 101 (double patenting) as claiming the same invention has been withdrawn in view of the amendment.

Response to Arguments

5. Applicant's arguments with respect to claims 17-20 have been considered but are moot in view of the new ground(s) of rejection.

Double Patenting

6. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29

Art Unit: 1772

USPQ2d 2010 (Fed. Cir. 1993); In re Longi, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); In re Van Ornum, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); In re Vogel, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and In re Thorington, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

7. Claims 17-20 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 17-20 of U.S. Patent No. 6,667,086. Although the conflicting claims are not identical, they are not patentably distinct from each other because both the Patent'086 and the instant application are directed to a method of labeling and re-labeling an object comprising providing a laminated support of a self-adhesive laminate resin film having a label receiving side consisting of a controlled-release surface without release coating and an adhesive side with adhesive having energy release level greater than the attraction force between the resin and the label, and a liner covering the adhesive; removing the liner; permanently attaching the support to an object with the adhesive; and placing an adhesive coated label on the label-receiving side of the support. However, Patent'086 recites the use of polytetrafluoroethylene as the support resin material and not the fluoropolymer resin as is claimed in the instant application. It would have been obvious to one having ordinary skill in the art to modify Patent'086 by using a fluoropolymer as the resin material because polytetrafluoroethylene is a species of the genus fluoropolymer, and the genus is inclusive of the species.

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
